

Superhero Creator – Django

Project points: /55

(5 points) As a developer, I want to make good, consistent commits.

(5 points) As a superhero fan, I want to view a list of superheroes.

(10 points) As a superhero fan, I want to click on a detail button associated with a superhero from the list and view that superhero's name, alter ego, primary superhero ability, secondary superhero ability, and catchphrase.

(10 points) As a superhero fan, I want to create a new superhero with a superhero name, alter ego name, primary superhero ability, secondary superhero ability, and catchphrase.

(10 points) As a superhero fan, I want to edit the superhero name, alter ego name, primary superhero ability, secondary superhero ability, and catchphrase of an existing superhero.

(10 points) As a superhero fan, I want to delete a superhero from the database.

(5 points) As a developer, I want to add an image of my favorite superhero on the web application's home page.

- Tip: the best practice approach to managing static files (image, JavaScript files, etc.) is to do this: <https://docs.djangoproject.com/en/3.2/howto/static-files/>

Bonus

(5 points) As a developer, I want to utilize Bootstrap via Bootstrap Content Delivery Network (CDN) to stylize my templates.
